Project 560, 2015 is the second edition of Project 560, a found spaces initiative that seeks to encourage artists to creatively engage with Bangalore city's found spaces, re-imagine them and bring them alive. It comes from IFA's desire to engage with a city that has nurtured and supported it for two decades. This year, India Foundation for the Arts has partnered with Citi India for Project 560, 2015.
